Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1	Stage 2	Stage 3
Actions <i>What does the customer do?</i>	•Collect health, education, and income data. •Access the HDI prediction system. •Enter the required values.	•Submit the data. •View the predicted HDI score and category. •Analyze the results.	•Use the prediction for planning •Compare different scenarios. •Make development decisions.
Touchpoint <i>What part of the service do they interact with?</i>	•Web application. •Data input form. •Dataset upload interface.	•Machine learning prediction engine. •Results dashboard. •Graphs and visualizations.	•Reports. •Dashboard. •Download/export options.
Customer Thought <i>What is the customer thinking?</i>	•"Is my data complete?" •"Will the prediction be accurate?" •"Is this easy to use?"	•"What is my country's predicted HDI?" •"Which factors affect the score most?" •"Can I trust these results?"	•"How can I improve the HDI?" •"Which sector needs attention?" •"What should be my next action?"

Customer Feeling <i>What is the customer feeling?</i>	Curious and hopeful.	Interested and confident.	Satisfied and empowered to make informed decisions.
Process Ownership <i>Who is in the lead on this?</i>	User and Data Collection Module.	Machine Learning Prediction Model.	User and Decision Support Dashboard.
Opportunities <i>How can we improve this stage?</i>	•Add automatic data validation. •Provide sample datasets •Improve the user interface.	•Increase prediction accuracy. •Explain the factors influencing the prediction. •Show confidence scores.	•Generate detailed recommendations. •Enable comparison across countries. •Provide downloadable reports
