Project Name	A Comprehensive Measure of Well-Being
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction	Introduce the team, project objective, and problem statement.	2	Team Member 1
2	Dataset & Methodology	Explain the HDI dataset, preprocessing, and machine learning model used.	3	Team Member 2
3	System Architecture	Present the workflow, Data Flow Diagram (DFD), and project architecture.	2	Team Member 3
4	Live Demonstration	Demonstrate the web application by entering input values and showing HDI prediction.	4	Team Member 4
5	Results & Analysis	Explain prediction results, HDI category, graphs, and model performance.	2	Team Member 5
6	Conclusion	Summarize the project, future enhancements, and answer questions.	2	Team Leader

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Explain the need for HDI prediction and project objectives.
2	Solution Overview	Describe the dataset, machine learning model, system architecture, and workflow.
3	Live Feature Demonstration	Demonstrate data input, HDI prediction, HDI category, and output dashboard.
4	Q&A Session	Answer questions and discuss future improvements.
